Train the trainers "It's up to me 7"

"It's up to me" is a holistic approach on how to develop quality youth workers and trainers that are going to work on transferring know-how, organizing and delivering high quality projects within the Erasmus + program. This project is going to contribute towards raising the quality of the Erasmus + projects that are going to be organized in future, develop capacity for the organizations and it will improve the quality of youth work in general. Some of the activities involve things that you already know which we

are going to refresh and see different points of view from different trainers, we will go over how to design projects and activities from A to Z, learn about tools and methods available, work on mastering your soft skills – basically all skills that you need to design and deliver educational activities, projects and exchanges. The workshops selected are based on the different competences from the Trainers competence model (European Training Strategy).

IBAN: DE63 2805 0100 0090 3201 77 BIC-/SWIFT-CODE: SLZODE22XXX Each year "It's up to me" has an underlying topic that it addresses, some **burning issue in our societies**. This year's theme on "It's up to me" is going to be – **mental health and wellbeing of trainers, youth workers and youth**. Most of the workshops, different tools and examples, tasks and simulations are going to have this theme incorporated which is going to bring an added value to the whole program. The objectives of the training course are going to be the following:

- Know-how To provide the participants with information on how some things are done, why some things are done in particular way, what is behind the scenes of a well-organized training/project, to peek into the decision making process, in the team management and in the preparation.
- ✓ Improve participants soft skills such as public speaking, presentation skills, selfexpression skills, listening skills, emotional intelligence and other. Attitudes, values and behaviors are also part of the mix.
- Provide methods and tools for delivery of workshops such as different types of simulations, team building games, role playing, visual expression, feedback and coaching, creating a learning environment, managing group dynamics.
- ✓ Provide hard copy materials. We are working on creating a <u>Trainers library</u> with at least **350 articles** for self-directed-learning that will address the all the trainers competence areas, which you will use in the 9 months between the two training courses to develop your competences as a trainer.
- Provide feedback to the participants. It is very important for you to receive feedback and do it again, so we would see the growth of the participants during the project.
- Showcase different styles of trainers. We will have four trainers from different backgrounds and professions that have very different working styles. This will help the participants see different approaches and ways of working which would then lead them to finding their own unique style in the future.
- Coaching and mentoring. Apart from the mentoring and feedback during the project, for this edition we will have 12 months mentoring process for all participants after the project until their first/next training experience.
- Self-assessment. Sometimes young trainers are not aware of the qualities they have and things they know. The self-assessment will be made according to the European trainer's competence model, and each participant will develop a learning plan that they will follow in the next 12 months.
- ✓ Critical thinking The participants will have the opportunity to analyze everything and develop critical thinking skills. After each workshop we take off the "participant hat" and put the "trainers' hat" and analyze why we did this or that.
- To offer opportunities for quality training experiences and project development. Organizing joint projects, creating pool of trainers, getting shadow-trainer opportunities.

The main method used during this training will be learning by doing. The participants will be given tasks and short deadlines in order to achieve their tasks. They are going to be guided by the trainers. After the tasks they will receive feedback and suggestions for improvement.

Place and venue: KulturHaus, near Bremen, Germany (Osterholz- Scharmbeck).

Osterholz - Scharmbeck is a small village/suburb in the surrounding of Bremen in Germany. We are going to be accommodated in a NaturKultur's seminar house.

We are going to be far away from the city, shops and bars because we want the participants to be focused on the training, on the cultural activities and to create a good atmosphere among the group. There is beautiful nature, really nice forest and places to have long walks and activities outside, yoga or meditation in the morning, to go for a run or bike ride and see the landscapes in the surrounding.

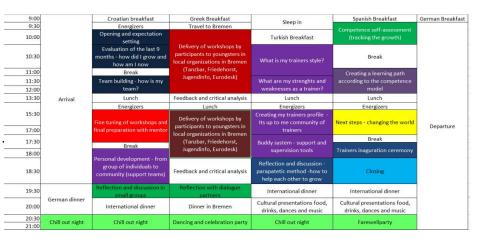

The venue is a youth center (KulturHaus) situated in a forest where we will be alone as a group, so the participants should **expect simple accommodation**. There are several seminar and break out rooms available for us to work, the rooms are from 2 to 4 people in a room. There will be showers and toilets in most of the rooms (or just outside the room).

We will have **our own cooking team** that will prepare the food and coffee breaks, take care about our health and nutritional intake so we can completely focus on the activities. Please note that we cannot provide vegan, fruitarian and HALAL food.
