"Our Future" aims to envision and start creating the world we want to live in.

A certain view of the world is fading and the pandemic speeded up this process. Yet, many of us are stuck in believing that coming back to the previous normality is not only possible, but necessary. The lack of vision, especially a long term vision, can be clearly seen in politics, but even social movements work on single instances and find it difficult to unite around one strong idea.

With "Our Future" project we will provide space for people to create the long-term vision of the world they want to live in, including the crucial upcoming decade. The project consists of two 8-days long mobilities in Poland (+ travel days).

1. **The first mobility (June 2022)** is dedicated to exploring existing alternative solutions around education, nature preservation, farming, businesses, communication and other crucial aspects of our life. We will get to know those solutions, critically analyse them and discuss what we want to take from there to our journey toward a new vision, what we would rather improve or leave behind, and how we can involve more and more people in this process.

2. **During the second mobility (October/November 2022)** we will dream together about the world we want to live in, learning and practising techniques of both individual and collective envisioning. We will also plan social projects which can bring us closer to the world of our dreams.

At the end of the training course, the participants are inspired and empowered to create and implement actions on the local level. These actions are connected to the project topic and dedicated to young people as well as other youth workers.

PARTICIPANT'S PROFILE

Active youth workers (working with or for youth), who:

- are open and willing to actively participate and contribute to the programme of the project and
- have motivation to develop social initiatives for young people and other youth workers and implement them locally after the training

- are available and motivated to attend the full duration of the training course held in English (both mobilities of 8 working days + 2 days of travel),
