# ABOUT US

ENTROPIA has a central role in intercultural dynamics of its area, being able to favor spontaneous aggregation and socialization among peers, beyond linguistic, cultural and other barriers.

The efforts and practices of inclusion, in which different groups or individuals having different backgrounds are culturally and socially accepted and welcomed and equally treated, are several and always include the promotion of European values.

We promoted several projects in the Erasmus+ and ESC programs, workshops and laboratories to work with youngers and help in improving skills and abilities in informal environment of human and professional development, as well as activities to discover and rethink the surrounding areas with an international breath.
