This TC is intended for youth workers and other professionals who have previous experience in local youth work activities, and are starting to implement educational activities for youngsters in the fields of entrepreneurship.

What will the tc look like?

The training course is developed in line with Youth Goal 7: Quality Employment for All and contributes to:

1. Ensuring the involvement of young people and youth organisations as equal partners in the development, implementation, monitoring and evaluation of employment policies at all levels.
2. Ensuring equal opportunities for all young people to develop the necessary skills and gain practical experience in order to smoothen the transition from education to the labour market.
3. Ensuring equal access to quality information and adequate support mechanisms to prepare young people for the changing labour market and future of work.

The training course will be based on non-formal education and learning-by-doing methods. The first days of the training are dedicated to getting to know participants and team building, learning about the Erasmus+ program and Youthpass. Days 3 and 4 offer participants insights into the entrepreneurial competences, existing country realities with youth unemployment and youth entrepreneurship and youth work programs implemented. On days 5 and 6 participants will dive deeper into EntreComp framework and analyse how different parts of framework can be incorporated in daily youth work activities implemented by partner organisations. On the day 7, participants will dive into analysing and understanding how covered topics can be used for their local level activities with youngsters, aiming at empowering youngsters for developing entrepreneurial solutions and employment opportunities.

Objectives

- To enhance participants' understanding of the Erasmus+ program, Youthpass, and the recognition of learning through key competences as part of non-formal education methods.
- To deepen participants' knowledge of the EntreComp Framework and its application in fostering entrepreneurial competences like creativity, problem-solving, and teamwork among young people.
- To empower participants to integrate entrepreneurial competences from the EntreComp Framework into daily youth work activities and develop innovative local-level initiatives to inspire entrepreneurial thinking among young people.
- To support participants in creating follow-up activities that empower young people to develop entrepreneurial solutions, leveraging digital practices and positive examples of employment opportunities.
