Hatay Center

✓ **552 Woman**

✓ **961 Children**

have received ongoing psychosocial support in our center.

In Üzümdalı psychosocial support center, psychosocial support is also provided to **Syrian survivors** affected by the earthquake.

Mobile Teams

Mobile teams provide assistance to individuals in need of psychological support who have difficulty in reaching the center. Mobile teams expand the impact area of psychosocial support.

MHPSS Project in Hatay

We provide support to the recovery process of survivors in Hatay, one of the most severely affected areas of the earthquake.

Üzümdalı Psychosocial Support Centre was launched in cooperation with AID and Mercy Malaysia.

At Üzümdalı Psychosocial Support Centre, individual and group therapies are provided and psychoeducation sessions are organised.

MHPSS Project in Kahramanmaraş

Millions of people have been affected by earthquakes in Türkiye and Syria. Buildings and cities collapsed. Thousands of women, children, elderly and millions of people need psychosocial support as they try to recover from the devastating effects of the earthquake. The psychosocial support center established in Kahramanmaraş in cooperation with Humadica provides support to the survivors. The center provides **individual therapies** and **psychoeducation**. The center **meets the standards** required to provide **mental health services** and supports all age groups.

In K.Maraş Center

a total of

■ **128 Elredy**

■ **225 Children**

■ **302 Adults**

are provided with psychological support.
