Please briefly present the partner organization.

CEKDEV International Education and Development Academy was founded in 2016 and arises from the desire of a group of people with a great experience in the field of international training. We offer a variety of Erasmus+ Staff Mobility Courses and Vocational Training Programs. CEKDEV is the only address where experience, expertise, excellence and innovation meet. We always look for an updating of knowledge and practices because we are aware of the constant evolution of the need of our trainees and trainers. For this purpose, we work on innovative projects, we develop open source and innovative tools with European organizations. We remain dynamic and forward thinking, and use the newest teaching materials, technology and interactive learning tools. Our trainers are highly skilled & enthusiastic. Moreover, our team has a huge experience in managing small and large scale projects financed by Erasmus+ Grant. Thanks to a great experience in the educational and vocational field, CEKDEV International Education and Development Academy promotes different school education and vocational education projects internationally, covering various duties as a trainer and hosting institution.

CEKDEV organizes training courses in various areas, and these courses are assigned to all students and also to the staff members of European Organizations such as Schools, Universities, VET Organizations, NGO's, Associations, Enterprises. Our prime objective is to give all participants the best opportunity to improve their lives and aim to give them the necessary skills they need in both their personal and professional lives, to attain success. Currently, we have 50 professional trainers and 20 facilitators in our team. CEKDEV International Education and Development Academy staff ensures continuous training both in terms of quality for the definition of guidelines and planning in the medium and long term, and in terms of ensuring a standard quality management and efficient organization for the activity in which it is involved. Experienced professionals and formal/non formal education trainers with long term experience in the field and highly qualified professionalism in the VET and the EU projects management.

If you want, we can also create a special custom-made program to fit your needs. For more details, please contact us!
